Dear author(s),

Thank you for your interest and support to IJIES.
I am hereby to confirm the delivery of your paper, Paper ID is "ijies3772".
It has been sent for reviewing.
The notification will be feedback within two weeks.
Appreciate your patiently wait.

If you have any question, please contact us with your paper ID.

Best regards,
IJIES Editors

Subject: Submission "A Different Approach on Automated Use Case Diagram Semantic Assessment"

Dear Editor:

Please find enclosed our manuscript entitled "A Different Approach on Automated Use Case Diagram Semantic Assessment," which we request you to consider for publication as a Regular Article in the International Journal of Intelligent Engineering and Systems (IJIES).

The use case diagram is one of the diagrams commonly taught in colleges of computer science. Assessment of use case diagrams is often an obstacle for a teacher in the learning process. It is due to the interpersonal and intrapersonal problems of the teacher in assessing. Interpersonal problems are caused by the absence of an assessment standard among teachers. Intrapersonal problems are caused by the inconsistency of a teacher in assessing many diagrams of student answers. This research aims to create a semantically use case diagram automatic assessment method. Semantic assessment is divided into two kinds, namely property and relationship. All information used is a label translated from the XMI document. Similarity assessment between labels used cosine similarity, Wu Palmer, and WordNet. The results showed that the proposed method had a substantial agreement with the teacher as an expert. A teacher tends to look at property information rather than relationship information to assess use case diagrams.

This manuscript has not been published elsewhere and is not under consideration by another journal. We have approved the manuscript and agree with submission to International Journal of Intelligent Engineering and Systems (IJIES). There are no conflicts of interest to declare.

We believe that the findings of this study are relevant to the scope of your journal and will be of interest to its readership.

We look forward to hearing from you at your earliest convenience.

Best regards,
Reza Fauzan

Kepada: Reza Fauzan <reza.fauzan@poliban.ac.id>

Dear author(s),

Congratulations!
The 1st review for your paper was accepted.

However, we are sorry to inform you that your paper cannot be recommended for publication in IJIES, in its current form.

Please revise your paper according to the attached reviewers' comments.

Please note that if your paper is still not satisfactorily revised or cannot be returned to us within TWO months from the date of this letter, your paper will not be recommended to the journal above.

Thanks for your understanding and cooperation.

Kind Regards,
IJIES Editors.

Dear IJIES Editor,

Thank you for your email dated November 20, 2020 enclosing to the reviewers' comments and stated our manuscript is accepted after major revision. We have carefully reviewed the comments and have revised the manuscript accordingly. We are sending our point-by-point response to the comments (response letter) and an updated manuscript with modifications and additions inside the paper by red font.

We hope the revised version is now suitable for publication and look forward to hearing from you in due course.

Best regards,

Reza Fauzan, Institut Teknologi Sepuluh Nopember

Kepada: Reza Fauzan <reza.fauzan@poliban.ac.id>

Dear author(s),

Thank you for your interest and support to IJIES.

After the following small revisions, we'd like to accept your paper:

1.

Please improve the reference format.

Besides, some articles have no information, such as journal name, vol., no., pp., and year. e.g. Ref. [24, 25].

This is very important for indexing service. If you did not follow the following format, your paper will be rejected automatically.

*Do not use "et al." in author names.

e.g.

[1] R. Ruskone, S. Airault, and O. Jamet, "Vehicle Detection on Aerial Images", International Journal of Intelligent Engineering and Systems, Vol.1, No.1, pp.123-456, 2009.

(In the case of Journal Papers)

[2] R. Ruskone, L. Guigues, S. Airault, and O. Jamet, "Vehicle Detection on Aerial Images", In: Proc. of International Conf. On Pattern Recognition, Vienna, Austria, pp.900-904, 1996.

(In the case of Conference Proceedings)

*Note: e.g. In the case of the author name: "John Doe", express as "J. Doe". ("John" is the first name and "Doe" is the family name.)

If you have any question, please contact us with your paper ID.

Best regards,

IJIES Editors

Dear Editor IJIES,

Thank you for your response to our article. Here we improve the reference format. We use Mendeley as the referencing tool and complete the metadata for every reference.

We hope the revised version is now suitable for publication and look forward to hearing from you in due course.

Best regards,
Reza Fauzan

Dear Author(s),

Paper ID: ijies3772

It is our great pleasure to inform you that the contribution referenced above, for which you are listed as the corresponding author, has been accepted for the 2nd review of the IJIES journal.
Congratulations!

*Important:

Please send your "signed" copyright and the payment proof of your publishing fee within one month.

Otherwise, your paper will be withdrawn.

The payment method will be sent from paypal. (Please check your mailbox carefully.)

*Publication fee: USD300 (tentative 11 pages: USD250 + USD50)

After we received these documents, the camera-ready version of your paper will be sent to you within a few weeks.
After your confirmation, the acceptance letter and receipt will be sent to you.

Best regards,
IJIES Editors.
